

# GentleBOX JR-300

## Usage:

- **GentleBOX** is complete and perfect outdoor box for AP, RouterBOARD and other electronics
- **GentleBOX** is mounting ready for parabola antenna
- With **GentleBOX** you can forget measuring and drilling! Everything is prepared
- With **GentleBOX** you can forget seeking for cable bush and assembling material! Everything is enclosed. You will require 1 flat and 2 (PH1 and PH2) cross-shaped screwdrivers and spanner "10"
- In **GentleBOX** welts and holes are prepared for easy installation of RouterBOARD or other electronics including screws and plastic piers
- Simplified mounting RB411, RB433, RB600, Alix2, Alix3, Compex, Wispstation, see the picture

## Technical parameters

<b>Dimensions</b>	see the picture
<b>Material</b>	UV steady plastic ABS, Polyamide
<b>Installation</b>	for all parabolic antennas of rank JRC-xx including DuplEX
<b>Ready for 8 cable glands</b>	4x Pg11, 4x M20

## Suitable for:

- [Parabolic antenna JRC-24](#)
- [Parabolic antenna JRC-29](#)
- [Parabolic antenna JRC-24 EXTREM](#)
- [Parabolic antenna JRC-29 EXTREM](#)
- [Dual-polarized parabolic antenna JRC-24 DuplEX](#)
- [Dual-polarized parabolic antenna JRC-29 DuplEX](#)

We recommend to use DuplEX antenna with R-SMA connectors. Using "N" you need 1 pcs of angle N adaptor at horizontal connector.

## Accessories part of packing
